DETAILED ACTION

1. This action is response to communications: application, filed 10/23/2001; amendments filed 06/28/2007. Claims 20-24 are pending; claims 20, 23 are amended; 1-19 are canceled

Reasons for allowance

With respect to claims 20 and 23, the prior arts of record, singly or in combination fails to teach the features of claim(s) limitations thereof. Specially, inter alia, it fails to teach a method for deriving a new encryption key for use in an encrypting keypad module, the method comprising: receiving a file containing input data, a first command indicating an algorithm, a second command indicating an encryption key which is already stored at the encrypting keypad module, and instructions for making a new encryption key; using the indicated algorithm and the indicated encryption key to decrypt the input data; and executing the instructions to direct how the decrypted input data is to be operated on to produce a new encryption key which is different from the encryption key which is already stored at the encrypting keypad module

Claims 21-22 and 24 further limit the allowed claims, therefore they are also allowed

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance"
